

Society

Miss Mary Luman, one of the very attractive young society girls, who will leave today for an extended eastern trip.

All matter to be included in Sunday society must be in this office not later than twelve o'clock noon Saturday.

A MOST delightful affair of yesterday afternoon was the reception given by Mrs. Frederick W. Pumphrey at her home on Second avenue to a large number of her friends. The home was beautiful with decorations of spring flowers, the dining room with a combination of yellow and white, and the living room with a combination of yellow and white. The table was decorated with yellow and white, and the room was filled with the fragrance of spring flowers. The hostess was assisted in receiving her guests by Mrs. Lafayette Hancock, Mrs. Robert Fisher, Mrs. Frank E. Baxter and Mrs. B. J. Greenman. Mrs. A. C. Smith and Mrs. H. G. McMillan and Mrs. G. Verbrugg. Assisting them were Mrs. Helen Greenwood, Miss Mildred Johnson, Miss Marian Thompson, while Mrs. Greenman and Evelyn Francis were at the door. The Hyde orchestra, seated in the hallway, furnished a beautiful musical programme during the whole afternoon.

The Spirit of Liberty chapter, Daughters of the American Revolution, had an interesting meeting yesterday afternoon, the regular March meeting devoted always to the patriotic songs given by the girls of the high school at the time of Washington's birthday. The meeting was held at the home of Mrs. F. J. Jensen and the members of the early hours enjoying a delicious collection of colonial relics which the hostess has acquired. The orations of last month were by the Misses Ruth Wells, Grace Gibson, Fannie Smith, Mabel Brimhall and Ruth Hurd. Some musical numbers were given by Miss Lucy Lewis and Miss Helen Smith. Mrs. John A. McIntyre accompanied the latter. The rooms were decorated with jonquils and white hyacinths and at the tea which followed the grammar Mrs. John A. McIntyre accompanied the latter. Fried Chicken

(Cottolene Style)

The best fried chicken you ever ate can be made with Cottolene.

Cottolene

can be heated to a much higher temperature than either butter or lard, without burning. It fries so quickly that little of the fat is absorbed, preventing the food being greasy. For this reason, Cottolene-fried food is more healthful than food fried in butter or lard.

Cottolene is more economical than lard—goes one-third farther, costs very much less than butter.

SPRING CANYON COAL

A NEW Coal And a Better One!

That's easy to say, isn't it? But here's the argument:

A good, hard, absolutely clean coal, which by analysis shows a fuel under 2 1/2 per cent moisture; below 4 1/2 per cent ash; 50 per cent fixed carbon and around 14,000 B. T. U's. (heat units).

Do you know what this means? In a word, it means a coal **POSITIVELY SUPERIOR** to anything mined in this vicinity up to date.

On its merits it will be found in 70 per cent of the coal bins in Salt Lake by January 1, 1914.

Each day we'll tell you more of this product—watch for our talks. And in the meantime:

"We do not fret, We'll sell you yet."

DOUBLES BEAUTY OF YOUR HAIR

All You Need Is a 25 Cent Bottle of "Danderine"—Hair Gets Lustrous, Fluffy and Abundant at Once.

Immediate!—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Danderine moistens a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil and in just a few moments you have doubled the beauty of your hair.

A delightful surprise awaits particularly those who have been careless, whose hair has been neglected or is (Advertisement)

BRADY MAKES BRIEF STOP IN SALT LAKE

James H. Brady, United States senator from Idaho, passed through Salt Lake City Wednesday night on his way to Idaho. The trip was a hurried one, according to Senator Brady, who said that he would be in Idaho but a few days before returning to Washington. While here he expressed the opinion that lead, wool or sugar would not be put on the free list. He said that there would doubtless be a free sugar bill passed by the house but that there was a protectionist element in the senate. He said he believed that President Woodrow Wilson would not sympathize with any ultra-radical programme.

Snowfall Is Heavy

From twelve to eighteen inches of snow fell in the cañons of the city's watershed during the storm that raged Wednesday night and yesterday morning, according to reports received by city water officials. In City creek more than a foot was recorded and farther south along the range the fall was much heavier. There is now more snow piled in the city's watershed than for many years and an ample water supply for the coming summer is assured.

LAND IS WITHDRAWN IN MILLARD COUNTY

At the request of the Deseret Irrigation company the state land board yesterday authorized the temporary withdrawal under the Carey act of 32,000 acres of land in Millard county. The tract is to be retained for a great irrigation project about to be launched just north of the Delta project in the same county.

Representatives of the company informed the land board that the project is fully financed and that surveys for the canal system and for the reservoir have been completed.

The withdrawal is subject to the usual conditions of the federal land office. It will be filed in the local land office within the next few days.

GOLD DUST

Make Pots and Pans Spick and Span with GOLD DUST

Pots and pans collect more dirt and grease than any other cooking utensil. The one best way of cleaning them is to use Gold Dust. Gold Dust not only takes off the outer dirt coating, but digs deep after germs and hidden particles, and makes them as spotlessly clean and sanitary as when new.

If you want your pots and pans so bright you can see your face in them—your pots and kettles spotless and germ-proof, use Gold Dust in cleaning. It will do the work, too, in half the time of the ordinary cleanser—and save most of your labor. Gold Dust does the bulk of the work alone—you merely assist it.

You simply cannot keep house properly without Gold Dust.
